Chapter 1

Abstract

The following document contains all the wireframes of our website. We've used Balsamiq as prototyping tool for the interactive mockup. The wireframes inserted in this document will not contain the hyperlinks of the interactive mockup. To completely use the potential of our mockup it is necessary to use the corresponding pdf.

Chapter 2

Wireframes

In the following pages are reported all the wireframes of the project.

The screenshot shows the homepage of the Hospidif website. At the top, there is a navigation bar with icons for back, forward, search, and refresh, followed by the word "Hospidif". Below the navigation bar is a pink header menu with the following items: a hospital building icon, "Services", "Doctors", "Locations", "Areas", "News", "FAQ", "Who we are", and "How to benefit of our service". The main content area features a photograph of a scientist in a lab coat and blue gloves looking through a microscope. To the left of the scientist, there is a dark overlay with white text that reads "New Biomedical project". Below the main image, there are three sections: "Common used Services", "Famous Doctors", and "Most used Areas". Each section lists services or doctors with a link symbol (→). At the bottom of the page is a footer bar with social media icons for Facebook and Twitter, an envelope icon labeled "CONTACT US", and a small logo.

Common used Services	Famous Doctors	Most used Areas
Chemotherapy →	Doctor Sadiq →	Cancer Care->
Radiotherapy →	Doctor Amato →	Cardiology ->
Radionuclide →	Doctor Vrushali ->	
Electrocardiogram →		
Echocardiograms →		

The screenshot shows the homepage of the Hospidif website. At the top, there is a navigation bar with icons for back, forward, search, and refresh, followed by the word "Hospidif". Below the navigation bar is a pink header menu with the following items: a hospital icon, "Services", "Doctors", "Locations", "Areas", "News", "FAQ", "Who we are", and "How to benefit of our service". The main content area features a smiling doctor holding a clipboard. To the right of the doctor is a dark grey box containing the text "Doctor Sadiq & his new discovery". Below the doctor's image are three sections: "Common used Services", "Famous Doctors", and "Most used Area". The "Common used Services" section lists: Chemotherapy, Radiotherapy, Radionuclide, Electrocardiogram, and Echocardiograms, each with a link symbol (→). The "Famous Doctors" section lists: Doctor Sadiq, Doctor Amato, and Doctor Vrushali, each with a link symbol (→). The "Most used Area" section lists: Cancer Care and Cardiology, each with a link symbol (→). At the bottom of the page is a footer bar with social media icons for Facebook and Twitter, an envelope icon for "CONTACT US", and a small logo.

The screenshot shows a web browser window for the 'Hospidif' website. The top navigation bar includes icons for back, forward, search, and a logo. Below the logo is a red horizontal menu bar with links: Services, Doctors, Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. The main content area has a large left arrow icon followed by the title 'RADIONUCLIDE THERAPY'. On the left, there are two blue rectangular buttons: 'Description' and 'Prices & Promotions'. To the right of these buttons is a detailed description of radionuclide therapy. Further down, there are two more blue rectangular buttons: 'Withdraw report' and 'Book Service'. To the right of these buttons are sections for 'Location Service' availability (London Westmister) and 'Doctor's service' (listing Doctor Sadiq, Doctor Amato, and Doctor Vrushali). At the bottom, there are social media icons for Facebook and Twitter, a 'CONTACT US' button, and a small gear icon.

Hospidif

Services Doctors Locations Areas News FAQ Who we are How to benefit of our service

RADIONUCLIDE THERAPY

Description

Prices & Promotions

Radionuclide therapy uses radioactive isotopes (radionuclides), administered either orally or intravenously, to deliver highly targeted therapy for a range of disorders, enabling the delivery of a high dose to the target, while minimising normal-tissue toxicity.
Radionuclide therapy, also known as isotope therapy or more recently molecular therapy is used to treat a range of cancers, as well as some non-cancerous diseases.

RADIOTHERAPY CANCER TREATMENT

Description

The London Clinic radiotherapy department uses the world's most up-to-date technology to provide the most advanced treatments possible for our patients. Clinical Radiotherapy staff use two Varian linear accelerators that deliver a wide range of external beam radiotherapy. All treatments are given using Image Guided Radiotherapy (IGRT) and treatments such as Intensity Modulated and Volumetric Arc Therapy (IMRT and VMAT or RapidArc) are standard for many patients.

We are also able to successfully treat a wide range of tumours using respiratory gating. Deep inspiration breath hold (DIBH) is the technique we use for left side breast cancer. The technique of end expiration breath hold (EEBH) is used for tumours in the abdomen and thorax including pancreas, lung and oesophageal cancer. The London Clinic is the only hospital in the UK to use the Gated

Hospidif

Services Doctors Locations Areas News FAQ Who we are How to benefit of our service

← ELECTROCARDIOGRAM (ECG)

Description

Prices & Promotions

An ECG measures the electrical activity of your heart that causes it to beat. The test can be used to check whether your heart is functioning properly, or whether there may be damage to it as a result of drugs, devices such as pacemakers, an existing heart disorder such as an irregular heartbeat, or a past heart attack.

During an electrocardiogram, a machine called an electrocardiograph records the electrical activity of your heart muscle and translates this as a pattern on a computer screen or on paper. If your heart is functioning normally, the ECG will have a characteristic pattern, while any irregular heartbeat will change the shape of the pattern produced.

ECHOCARDIOGRAMS

Description

An echocardiogram allows your doctor to examine the structure of your heart such as your heart walls, chambers and arteries in order to see how it functions. An echocardiogram also allows your doctor to examine the speed at which blood is pumped through your heart.

Prices & Promotions

At The London Clinic, our highly trained team of cardiologists and technicians perform echocardiograms to diagnose problems with your heart. There are several different types of echocardiogram, and your doctor will recommend the test most suitable to you given your individual circumstances.

GASTROENTEROLOGY

Description

The London Clinic Endoscopy Unit is a purpose-built, recently refurbished facility which allows complete examination of either the upper gastrointestinal (GI) tract or the lower GI tract. Endoscopy is used to investigate all parts of the digestive system. Upper gastrointestinal (GI) endoscopy and lower GI endoscopy (colonoscopy) are generally performed by physician or surgeon gastroenterologists who have specialised in these techniques.

Prices & Promotions

Some of our consultants specialise in endoscopic examination of the small bowel and of the pancreatic and bile ducts. The calm, relaxing environment has recently been upgraded to provide an enhanced environment for our consultants, giving the best possible treatment to our patients.

f CONTACT US

The wireframe depicts a web browser window for 'Hospidif'. The header bar includes standard icons for back, forward, search, and refresh, along with the site name 'Hospidif'. Below the header is a navigation menu with a hospital icon and links for 'Services', 'Doctors', 'Locations', 'Areas', 'News', 'FAQ', 'Who we are', and 'How to benefit of our service'. The main content area has a left sidebar with a back arrow and the text 'Service Name'. The main body contains a blue box labeled 'Description' with placeholder text about service details. A white box labeled 'Prices & Promotions' also contains placeholder text. On the right side, there's a large text block with placeholder text. At the bottom, there are two boxes: 'Withdraw report' and 'Book Service'. To the right of these boxes is a table mapping locations to service availability and doctors. The footer features social media icons for Facebook and Twitter, an envelope icon for 'CONTACT US', and a small gear icon.

Location Service' availability		Doctor's service
Location 1 ->	Location 1 ->	Doctor 1 ->
Location 2 ->	Location 2 ->	Doctor 2 ->
Location 3 ->	Location 3 ->	Doctor 3 ->
Location 4 ->	Location 4 ->	Doctor 4 ->

The wireframe illustrates a web application interface for 'Hospidif'. At the top, there's a header bar with standard browser controls (back, forward, search, etc.) and the site name 'Hospidif'. Below the header is a navigation menu with a logo icon (a house with a cross) and links for 'Services', 'Doctors', 'Locations', 'Areas', 'News', 'FAQ', 'Who we are', and 'How to benefit of our service'. The main content area has a back arrow and the title 'Service Name'. On the left, there's a sidebar with four buttons: 'Description' (white), 'Prices & Promotions' (blue, currently selected), 'Withdraw report' (white), and 'Book Service' (white). The main content area contains two columns: 'Prices' (containing placeholder text about Lorem ipsum dolor sit amet) and 'Promotions' (containing placeholder text about Lorem ipsum dolor sit amet). At the bottom, there's a footer bar with social media icons for Facebook and Twitter, an envelope icon for 'CONTACT US', and a small edit icon.

The wireframe depicts a web browser window for 'Hospidif'. The header bar includes standard icons for back, forward, stop, and refresh, along with a search bar. Below the header is a red navigation bar with links: Services, Doctors (highlighted in red), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. A house icon with a cross is positioned next to the 'Services' link. The main content area is titled 'Filters' on the left. It contains two sections: 'Services' and 'Locations'. Under 'Services', there is a checked checkbox for 'All Services' and several other unchecked checkboxes for various medical services. Under 'Locations', there is a checked checkbox for 'All Location' and two other unchecked checkboxes for specific locations. To the right of the filters, the text 'Doctors -> Name Area' is displayed above a grid of eight placeholder boxes arranged in two rows of four. Each box contains the text 'Doct. Surname' in blue. At the bottom of the page is a footer bar with social media icons for Facebook and Twitter, and a 'CONTACT US' button.

Hospidif

The screenshot shows a web browser window for the 'Hospidif' website. At the top, there is a navigation bar with icons for back, forward, stop, and home, followed by a search bar and a user icon. Below the navigation bar is a pink header menu with links: Services, Doctors (which is highlighted in red), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. On the left side, under the heading 'Filters', there are two sections: 'Areas' and 'Locations'. Under 'Areas', there is a list of checkboxes: All Areas (unchecked), Cancer care (checked), Cardiology (unchecked), Vascular and vein (unchecked), and Stomach and bowel (unchecked). Under 'Locations', there is a list of checkboxes: All Location (checked), London Westmister (unchecked), and Milano Repubblica (unchecked). In the center of the page, the text 'Doctors -> Endovascular surgery' is displayed above a portrait of a man in a white lab coat and glasses, identified as 'Doct. Amato'. At the bottom of the page, there is a footer bar with social media icons for Facebook and Twitter, and a 'CONTACT US' button.

The wireframe depicts a web browser window for a site named "Hospidif". The header includes standard navigation icons (back, forward, search, etc.) and the site name. Below the header is a red navigation bar with links: Services, Doctors (highlighted in red), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. The main content area has a left sidebar with a large "X" placeholder image. The main title is "Doctor Surnamer Name" with a back arrow icon. Below the title is a horizontal menu bar with three items: About (selected), Working Hours, and Related Services. The main content area contains two columns of text. The left column is a placeholder for a doctor's profile picture. The right column contains two paragraphs of placeholder text (Lorem ipsum and Vivamus) and a contact section with a "CONTACTS" heading, phone number, and email address. At the bottom, there are social media icons for Facebook and Twitter, and a "CONTACT US" button.

◀ Doctor Aleshire Mollie E.

About Working Hours Related Services

My name is Mollie E. Aleshire; I am a family and pediatric nurse practitioner at the University of Kentucky College of Nursing Phyllis D. Corbitt Community Health Center in Wilmore, Ky. I am an assistant professor in the University of Kentucky College of Nursing. I am passionate about providing healthcare to the people of Kentucky and educating the nurses of the future. My nursing practice spans more than fifteen years with experience in both critical care and ambulatory care settings. I serve as a clinical preceptor for both baccalaureate and advanced practice nursing students.

I received a Bachelor of Science in Nursing degree from Berea College in Berea, Ky. I earned a Master of Science in Nursing in the family nurse practitioner track from the University of Kentucky in 2003. I was awarded a post graduate scholar certificate in the pediatric nurse practitioner track by Spalding University in 2005. In May 2010, I completed a Doctor of Nursing Practice at the University of Kentucky.

Doctor Lowell B. Anthony

About Working Hours Related Services

My name is Lowell Anthony; I joined the UK Markey Cancer Center with more than two decades of experience in oncology and a special focus in gastrointestinal and neuroendocrine oncology. My clinical interests include drug development ranging from Phase I to III clinical trials. Agents targeting specific cellular signaling pathways and injectable radiolabeled compounds make up my past and current clinical investigative interests. I bring a clinical correlative component to complement the ongoing translational activities at Markey Cancer Center.

I attended Vanderbilt University Medical School, where I also completed a medical residency and fellowship training in medical oncology and clinical pharmacology. I have previously been on the medical faculties at Vanderbilt University and the Louisiana State University Health Sciences Center in New Orleans.

The screenshot shows a web browser window with the title 'Hospidif' at the top. The header bar includes standard icons for back, forward, stop, and search, along with a magnifying glass icon. Below the header is a red navigation bar with links: Services, Doctors, Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. On the left side of the main content area is a large, stylized profile picture of a doctor with dark hair and a stethoscope around their neck. To the left of the profile picture is a black arrow pointing left. To the right of the profile picture is the doctor's name, 'Doctor Aleshire Mollie E.'. Below the name are three buttons: 'About' (white background), 'Working Hours' (white background), and 'Related Services' (blue background). Under the 'Related Services' button, the text 'Operating Services' is followed by two items: 'Electrocardiogram' and 'Echocardiograms', each preceded by a right-pointing arrow. Further down the page, under 'Area Responsible', is the text 'Cardiology'. Under 'Service Responsible', is the text 'Electrocardiogram'. At the bottom of the page, there is a pink box containing contact information: 'CONTACTS', 'Phone: 123-564789', and 'email: name.surname@hospidif.com'. Social media icons for Facebook and Twitter are located at the very bottom, along with a 'CONTACT US' button.

The screenshot shows a web browser window with the title 'Hospidif' at the top. The header bar includes standard icons for back, forward, search, and refresh. Below the header is a red navigation bar with links: Services, Doctors, Locations, Areas, News (which is highlighted in red), FAQ, Who we are, and How to benefit of our service. On the left side of the main content area, there is a large black arrow pointing left and a small image of a doctor in a white coat. The main content features a heading 'Doctor Sadiq & his new discovery'. Below the heading is a paragraph of placeholder text (Lorem ipsum) followed by two more paragraphs of text. At the bottom of the page are social media links for Facebook and Twitter, and a 'CONTACT US' button.
