Chapter 1

Abstract

The following document contains all the wireframes of our website. We've used Balsamiq as prototyping tool for the interactive mockup. The wireframes inserted in this document will not contain the hyperlink of the interactive mockup. To completely use the potential of our mockup it is necessary to use the correspondent pdf.

Chapter 2

Wireframes

In the following pages are reported all the wireframes of the project.

The screenshot shows the homepage of the Hospidif website. At the top, there is a navigation bar with icons for back, forward, search, and refresh, followed by the word "Hospidif". Below the navigation bar is a pink header menu with the following items: a hospital building icon, "Services", "Doctors", "Locations", "Areas", "News", "FAQ", "Who we are", and "How to benefit of our service". The main content area features a large image of a scientist in a lab coat and blue gloves looking through a microscope. To the left of the scientist, there is a dark overlay with white text that reads "New Biomedical project". Below the main image, there are three sections: "Common used Services", "Famous Doctors", and "Most used Areas". Each section lists services or doctors with a link symbol (→). At the bottom of the page is a footer bar with social media icons for Facebook and Twitter, an envelope icon for "CONTACT US", and a small logo.

Common used Services	Famous Doctors	Most used Areas
Chemotherapy →	Doctor Sadiq →	Cancer Care->
Radiotherapy →	Doctor Amato →	Cardiology ->
Radionuclide →	Doctor Vrushali ->	
Electrocardiogram →		
Echocardiograms →		

The screenshot shows the homepage of the Hospidif website. At the top, there is a navigation bar with icons for back, forward, search, and refresh, followed by the site name "Hospidif". Below the navigation bar is a pink header menu with the following items: a hospital icon, "Services", "Doctors", "Locations", "Areas", "News", "FAQ", "Who we are", and "How to benefit of our service". The main content area features a smiling doctor holding a clipboard. To the right of the doctor is a dark grey box containing the text "Doctor Sadiq & his new discovery". Below this section are three columns of links: "Common used Services" (Chemotherapy, Radiotherapy, Radionuclide, Electrocardiogram, Echocardiograms), "Famous Doctors" (Doctor Sadiq, Doctor Amato, Doctor Vrushali), and "Most used Area" (Cancer Care, Cardiology). At the bottom of the page is a footer bar with social media icons for Facebook and Twitter, an envelope icon for "CONTACT US", and a small logo.

RADIONUCLIDE THERAPY

Description

Prices & Promotions

Radionuclide therapy uses radioactive isotopes (radionuclides), administered either orally or intravenously, to deliver highly targeted therapy for a range of disorders, enabling the delivery of a high dose to the target, while minimising normal-tissue toxicity.
Radionuclide therapy, also known as isotope therapy or more recently molecular therapy is used to treat a range of cancers, as well as some non-cancerous diseases.

The main menu links are Services, Doctors, Locations, Areas, News, FAQ, Who we are, and How to benefit of our service.

RADIOTHERAPY CANCER TREATMENT

Description

The London Clinic radiotherapy department uses the world's most up-to-date technology to provide the most advanced treatments possible for our patients. Clinical Radiotherapy staff use two Varian linear accelerators that deliver a wide range of external beam radiotherapy. All treatments are given using Image Guided Radiotherapy (IGRT) and treatments such as Intensity Modulated and Volumetric Arc Therapy (IMRT and VMAT or RapidArc) are standard for many patients.

We are also able to successfully treat a wide range of tumours using respiratory gating. Deep inspiration breath hold (DIBH) is the technique we use for left side breast cancer. The technique of end expiration breath hold (EEBH) is used for tumours in the abdomen and thorax including pancreas, lung and oesophageal cancer. The London Clinic is the only hospital in the UK to use the Gated

← ELECTROCARDIOGRAM (ECG)

Description

Prices & Promotions

An ECG measures the electrical activity of your heart that causes it to beat. The test can be used to check whether your heart is functioning properly, or whether there may be damage to it as a result of drugs, devices such as pacemakers, an existing heart disorder such as an irregular heartbeat, or a past heart attack.

During an electrocardiogram, a machine called an electrocardiograph records the electrical activity of your heart muscle and translates this as a pattern on a computer screen or on paper. If your heart is functioning normally, the ECG will have a characteristic pattern, while any irregular heartbeat will change the shape of the pattern produced.

GASTROENTEROLOGY

Description

The London Clinic Endoscopy Unit is a purpose-built, recently refurbished facility which allows complete examination of either the upper gastrointestinal (GI) tract or the lower GI tract. Endoscopy is used to investigate all parts of the digestive system. Upper gastrointestinal (GI) endoscopy and lower GI endoscopy (colonoscopy) are generally performed by physician or surgeon gastroenterologists who have specialised in these techniques.

Prices & Promotions

Some of our consultants specialise in endoscopic examination of the small bowel and of the pancreatic and bile ducts. The calm, relaxing environment has recently been upgraded to provide an enhanced environment for our consultants, giving the best possible treatment to our patients.

The sidebar contains four buttons: 'Description', 'Prices & Promotions' (which is highlighted in blue), 'Withdraw report', and 'Book Service'. The main content area features two columns. The left column is titled 'Prices' and contains placeholder text: 'Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vestibulum sed turpis tortor. Donec varius tristique justo, non interdum erat. Mauris lacinia suscipit mi eget fringilla. In aliquet eleifend nisl, et viverra enim malesuada vulputate. Cras dui risus, sagittis vitae velit sit amet, eleifend ornare elit. Etiam a mauris at nulla pulvinar tincidunt. Praesent vehicula mollis nibh, congue vehicula nisl ultricies ut. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vestibulum sed turpis tortor. Donec varius tristique justo, non interdum erat.' The right column is titled 'Promotions' and also contains placeholder text: 'Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vestibulum sed turpis tortor. Donec varius tristique justo, non interdum erat. Mauris lacinia suscipit mi eget fringilla. In aliquet eleifend nisl, et viverra enim malesuada vulputate. Cras dui risus, sagittis vitae velit sit amet, eleifend ornare elit. Etiam a mauris at nulla pulvinar tincidunt. Praesent vehicula mollis nibh, congue vehicula nisl ultricies ut. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vestibulum sed turpis tortor. Donec varius tristique justo, non interdum erat.'. At the bottom of the page are social media icons for Facebook and Twitter, and a 'CONTACT US' button.

The wireframe depicts a web browser window for 'Hospidif'. The header bar includes standard icons for back, forward, search, and refresh, along with the site name 'Hospidif'. Below the header is a navigation menu with a hospital icon and links to 'Services', 'Doctors', 'Locations', 'Areas', 'News', 'FAQ', 'Who we are', and 'How to benefit of our service'. The main content area has a left sidebar with a back arrow and the text 'Service Name'. The main body contains a blue box labeled 'Description' with placeholder text about service details. A white box labeled 'Prices & Promotions' also contains placeholder text. On the right side, there's a large text block with placeholder text. Below this, a table lists service availability across four locations and associated doctors. At the bottom, social media icons for Facebook and Twitter are on the left, and a 'CONTACT US' button with an envelope icon is on the right.

The screenshot shows a web browser window for the Hospidif website. The header includes a logo of a house with a cross, navigation icons (back, forward, search), and the site name 'Hospidif'. Below the header is a red navigation bar with links: Services, Doctors (which is highlighted in red), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. The main content area has a sidebar on the left with 'Filters' and sections for 'Services' and 'Locations'. Under 'Services', there is a list of checkboxes for various medical services, with 'Echocardiograms' checked. Under 'Locations', there is a list of checkboxes for 'All Location', 'London Westmister', and 'Milano Repubblica', with 'All Location' checked. The main content area displays the text 'Doctors -> Stomach and bowel' and 'No Doctor fullfill the requirement'.

Hospidif

The wireframe depicts a web browser window for 'Hospidif'. The header bar includes standard icons for back, forward, stop, and refresh, along with a search bar. Below the header is a red navigation bar with links: Services, Doctors (highlighted in red), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. A house icon with a cross is positioned next to the 'Services' link. The main content area is titled 'Filters' on the left. It contains two sections: 'Services' and 'Locations'. Under 'Services', there is a checked checkbox for 'All Services' and several other unchecked checkboxes for various medical procedures. Under 'Locations', there is a checked checkbox for 'All Location' and two other unchecked checkboxes for specific locations. To the right of the filters, the page title 'Doctors -> Name Area' is displayed above a grid of eight placeholder boxes arranged in two rows of four. Each box contains the text 'Doct. Surname' in blue. At the bottom of the page is a footer bar with social media icons for Facebook and Twitter, an envelope icon labeled 'CONTACT US', and a small gear icon.

The screenshot shows a web browser window for the 'Hospidif' website. The top navigation bar includes icons for back, forward, stop, and refresh, along with a search bar and a user icon. Below the bar is a red header menu with links: Services, Doctors (which is highlighted in red), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. On the left side, there's a sidebar titled 'Filters' with sections for 'Areas' and 'Locations'. Under 'Areas', 'Cancer care' is checked. Under 'Locations', 'All Location' is checked. The main content area displays a doctor profile for 'Doct. Amato', featuring a portrait photo of an elderly man in a white coat and glasses, followed by the name 'Doct. Amato'. At the bottom of the page are social media icons for Facebook and Twitter, and a 'CONTACT US' button.

Hospidif

The wireframe shows a web browser window with a red header bar containing a hospital icon, the word 'Hospidif', and navigation buttons. Below the header is a menu bar with links: Services, Doctors (which is the active tab), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. The main content area has a title 'Doctors -> Name Location'. On the left, there are two sections: 'Filters' and 'Services'. The 'Filters' section contains a 'Areas' heading with checkboxes for All Areas (checked) and Oncology, Pediatry, Chirurgy, Emergency, and Geriatrics (unchecked). The 'Services' section contains a 'Services' heading with checkboxes for All Services (checked) and RX, TAC, Ecography, Visit, Physiotherapy, and Consult (unchecked). Below these sections is a grid of eight search fields, each labeled 'Doct. Surname' and featuring a large 'X' symbol inside a square frame.

The screenshot shows a web browser window with the title 'Hospidif' at the top. The header bar includes standard icons for back, forward, stop, and search. Below the header is a red navigation bar with links: Services, Doctors, Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. On the left side of the main content area is a large profile picture of a woman with dark hair, wearing a white lab coat over a blue shirt. To the left of the profile picture is a black arrow pointing left. The main title of the page is 'Doctor Aleshire Mollie E.'. Below the title are three buttons: 'About' (highlighted in blue), 'Working Hours', and 'Related Services'. The 'About' section contains a biography of Mollie E. Aleshire, mentioning her education at the University of Kentucky College of Nursing, her role as an assistant professor, and her passion for healthcare and nursing education. It also notes her clinical practice spans fifteen years and her work as a clinical preceptor. The 'Working Hours' section contains information about her availability. The 'Related Services' section likely links to other healthcare professionals or services. At the bottom of the page are social media icons for Facebook and Twitter, and a 'CONTACT US' button.

Doctor Aleshire Mollie E.

About Working Hours Related Services

My name is Mollie E. Aleshire; I am a family and pediatric nurse practitioner at the University of Kentucky College of Nursing Phyllis D. Corbitt Community Health Center in Wilmore, Ky. I am an assistant professor in the University of Kentucky College of Nursing. I am passionate about providing healthcare to the people of Kentucky and educating the nurses of the future. My nursing practice spans more than fifteen years with experience in both critical care and ambulatory care settings. I serve as a clinical preceptor for both baccalaureate and advanced practice nursing students.

I received a Bachelor of Science in Nursing degree from Berea College in Berea, Ky. I earned a Master of Science in Nursing in the family nurse practitioner track from the University of Kentucky in 2003. I was awarded a post graduate scholar certificate in the pediatric nurse practitioner track by Spalding University in 2005. In May 2010, I completed a Doctor of Nursing Practice at the University of Kentucky.

Doctor Lowell B. Anthony

About Working Hours Related Services

My name is Lowell Anthony; I joined the UK Markey Cancer Center with more than two decades of experience in oncology and a special focus in gastrointestinal and neuroendocrine oncology. My clinical interests include drug development ranging from Phase I to III clinical trials. Agents targeting specific cellular signaling pathways and injectable radiolabeled compounds make up my past and current clinical investigative interests. I bring a clinical correlative component to complement the ongoing translational activities at Markey Cancer Center.

I attended Vanderbilt University Medical School, where I also completed a medical residency and fellowship training in medical oncology and clinical pharmacology. I have previously been on the medical faculties at Vanderbilt University and the Louisiana State University Health Sciences Center in New Orleans.

The screenshot shows a web browser window for the 'Hospidif' website. At the top, there is a navigation bar with icons for back, forward, search, and refresh, followed by the 'Hospidif' logo. Below the logo is a horizontal menu bar with links: Services, Doctors, Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. The main content area features a portrait of Doctor Amato R. Stephen, a man with glasses and a white coat. To his right are three buttons: 'About', 'Working Hours', and 'Related Services' (which is highlighted in blue). Below these buttons is a section titled 'Operating Services' listing medical services with arrows pointing to them. Further down are sections for 'Area Responsible' and 'Service Responsible'. At the bottom of the page are social media icons for Facebook and Twitter, and a 'CONTACT US' button.

The screenshot shows a web browser window with a light gray header bar containing icons for back, forward, stop, and search, along with a URL bar. Below the header is a red navigation bar with white text and icons. From left to right, the menu items are: a house icon with a cross (Services), Doctors (highlighted in red), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. The main content area has a white background. On the left, there is a black arrow pointing left and the text "Doctor Vrushali Angadi". To the right of the arrow is a portrait photo of a woman with long dark hair, wearing a white lab coat over a maroon collared shirt. The lab coat has "UK" and "University of Kentucky" printed on it. Below the photo is a black rectangular button with the word "Call" in white. To the right of the photo is a blue horizontal bar containing three buttons: "About", "Working Hours" (which is white), and "Related Services". Underneath these buttons is a section titled "Operating Services" in blue. It lists three services with arrows: "Chemotherapy", "Radiotherapy", and "Radionuclide". Below this is a section titled "Area Responsible" in blue, followed by "Service Responsible" in blue and "Radionuclide" in black. At the bottom of the page is a gray footer bar with social media icons for Facebook and Twitter on the left, and a "CONTACT US" button with an envelope icon on the right.

The screenshot shows a web browser window with the title 'Hospidif' at the top. The header bar includes standard icons for back, forward, stop, and search, along with a magnifying glass icon for search. Below the header is a navigation menu with a house icon and links for Services, Doctors, Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. The main content area displays a portrait of Doctor Lowell B. Anthony, a man with white hair wearing a white lab coat and a patterned tie. To the left of the portrait is a black arrow pointing left. To the right of the portrait is a horizontal menu bar with three items: 'About' (white background), 'Working Hours' (white background), and 'Related Services' (blue background). Below this menu, under the heading 'Operating Services', are two links: 'Electrocardiogram' and 'Echocardiograms', each followed by a right-pointing arrow. Further down, under 'Area Responsible', is a link with a dash. Under 'Service Responsible', there is a link to 'Echocardiograms'. At the bottom of the page is a call-to-action button labeled 'Call'.
