Chapter 2

Wireframes

In the following pages are reported all the wireframes of the project.

The screenshot shows the homepage of the Hospidif website. At the top, there is a navigation bar with icons for back, forward, search, and refresh, followed by the site name "Hospidif". Below the navigation bar is a pink header menu with links for Services, Doctors, Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. To the left of the menu is a logo of a hospital building with a cross. The main content area features a photograph of a scientist in a lab coat and blue gloves looking through a microscope. A computer monitor in the background displays a world map. A black banner across the middle of the image contains the text "New Biomedical project". Below this, there are three sections: "Common used Services", "Famous Doctors", and "Most used Areas", each listing several items with arrows indicating links. At the bottom of the page is a footer bar with social media icons for Facebook and Twitter, an envelope icon for "CONTACT US", and a small logo.

Common used Services	Famous Doctors	Most used Areas
Chemotherapy ->	Doctor Sadiq ->	Cancer Care->
Radiotherapy ->	Doctor Amato ->	Cardiology ->
Radionuclide ->	Doctor Vrushali ->	
Electrocardiogram ->		
Echocardiograms ->		

The screenshot shows a web browser window for a website named "Hospidif". The header bar includes standard navigation icons (back, forward, search) and the site name "Hospidif". Below the header is a pink navigation menu bar with links: Services, Doctors, Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. A large, smiling male doctor in a white coat is holding a clipboard with the text "Doctor Sadiq & his new discovery" displayed prominently. Below the doctor are three sections: "Common used Services", "Famous Doctors", and "Most used Area". The "Common used Services" section lists: Chemotherapy, Radiotherapy, Radionuclide, Electrocardiogram, and Echocardiograms, each followed by a right-pointing arrow. The "Famous Doctors" section lists: Doctor Sadiq, Doctor Amato, and Doctor Vrushali, each followed by a right-pointing arrow. The "Most used Area" section lists: Cancer Care, Cardiology, and another entry partially visible. At the bottom of the page are social media links for Facebook and Twitter, and a "CONTACT US" button.

RADIONUCLIDE THERAPY

Description

Prices & Promotions

Radionuclide therapy uses radioactive isotopes (radionuclides), administered either orally or intravenously, to deliver highly targeted therapy for a range of disorders, enabling the delivery of a high dose to the target, while minimising normal-tissue toxicity.
Radionuclide therapy, also known as isotope therapy or more recently molecular therapy is used to treat a range of cancers, as well as some non-cancerous diseases.

RADIOTHERAPY CANCER TREATMENT

Description

The London Clinic radiotherapy department uses the world's most up-to-date technology to provide the most advanced treatments possible for our patients. Clinical Radiotherapy staff use two Varian linear accelerators that deliver a wide range of external beam radiotherapy. All treatments are given using Image Guided Radiotherapy (IGRT) and treatments such as Intensity Modulated and Volumetric Arc Therapy (IMRT and VMAT or RapidArc) are standard for many patients.

We are also able to successfully treat a wide range of tumours using respiratory gating. Deep inspiration breath hold (DIBH) is the technique we use for left side breast cancer. The technique of end expiration breath hold (EEBH) is used for tumours in the abdomen and thorax including pancreas, lung and oesophageal cancer. The London Clinic is the only hospital in the UK to use the Gated

← ELECTROCARDIOGRAM (ECG)

Description

Prices & Promotions

An ECG measures the electrical activity of your heart that causes it to beat. The test can be used to check whether your heart is functioning properly, or whether there may be damage to it as a result of drugs, devices such as pacemakers, an existing heart disorder such as an irregular heartbeat, or a past heart attack.

During an electrocardiogram, a machine called an electrocardiograph records the electrical activity of your heart muscle and translates this as a pattern on a computer screen or on paper. If your heart is functioning normally, the ECG will have a characteristic pattern, while any irregular heartbeat will change the shape of the pattern produced.

ECHO CARDIOGRAMS

Description

An echocardiogram allows your doctor to examine the structure of your heart such as your heart walls, chambers and arteries in order to see how it functions. An echocardiogram also allows your doctor to examine the speed at which blood is pumped through your heart.

Prices & Promotions

At The London Clinic, our highly trained team of cardiologists and technicians perform echocardiograms to diagnose problems with your heart. There are several different types of echocardiogram, and your doctor will recommend the test most suitable to you given your individual circumstances.

The screenshot shows a web browser window with the title "Hospidif" at the top. The header bar includes standard icons for back, forward, stop, and search, along with a magnifying glass icon. Below the header is a navigation menu with a house icon and links to "Services", "Doctors", "Locations", "Areas", "News", "FAQ", "Who we are", and "How to benefit of our service".

The main content area has a left sidebar with a back arrow and the title "GASTROENTEROLOGY". On the left side of the main content, there are two blue rectangular buttons: "Description" and "Prices & Promotions". To the right of these buttons is a detailed text block about the London Clinic Endoscopy Unit.

The text block states: "The London Clinic Endoscopy Unit is a purpose-built, recently refurbished facility which allows complete examination of either the upper gastrointestinal (GI) tract or the lower GI tract. Endoscopy is used to investigate all parts of the digestive system. Upper gastrointestinal (GI) endoscopy and lower GI endoscopy (colonoscopy) are generally performed by physician or surgeon gastroenterologists who have specialised in these techniques."

Below this text, there are two more sections: "Location Service' availability" (listing "Milano Repubblica ->") and "Doctor's service" (listing "Doctor Anderson-Mooney ->").

At the bottom of the page, there are social media icons for Facebook and Twitter, and a "CONTACT US" button with an envelope icon. A small "PRINT" icon is also visible on the right side of the page.

Description

Prices & Promotions

The London Clinic Endoscopy Unit is a purpose-built, recently refurbished facility which allows complete examination of either the upper gastrointestinal (GI) tract or the lower GI tract. Endoscopy is used to investigate all parts of the digestive system. Upper gastrointestinal (GI) endoscopy and lower GI endoscopy (colonoscopy) are generally performed by physician or surgeon gastroenterologists who have specialised in these techniques.

Some of our consultants specialise in endoscopic examination of the small bowel and of the pancreatic and bile ducts. The calm, relaxing environment has recently been upgraded to provide an enhanced environment for our consultants, giving the best possible treatment to our patients.

The wireframe depicts a web browser window for 'Hospidif'. The header bar includes standard icons for back, forward, search, and refresh, followed by the site name 'Hospidif'. Below the header is a navigation menu with a house icon and links to 'Services', 'Doctors', 'Locations', 'Areas', 'News', 'FAQ', 'Who we are', and 'How to benefit of our service'. The main content area has a left sidebar with a back arrow and the title 'GASTROENTEROLOGY'. The sidebar contains four buttons: 'Description', 'Prices & Promotions' (which is highlighted in blue), 'Withdraw report', and 'Book Service'. The main content area features two columns. The left column is titled 'Prices' and contains placeholder text: 'Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vestibulum sed turpis tortor. Donec varius tristique justo, non interdum erat. Mauris lacinia suscipit mi eget fringilla. In aliquet eleifend nisl, et viverra enim malesuada vulputate. Cras dui risus, sagittis vitae velit sit amet, eleifend ornare elit. Etiam a mauris at nulla pulvinar tincidunt. Praesent vehicula mollis nibh, congue vehicula nisl ultricies ut. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vestibulum sed turpis tortor. Donec varius tristique justo, non interdum erat.' The right column is titled 'Promotions' and also contains placeholder text: 'Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vestibulum sed turpis tortor. Donec varius tristique justo, non interdum erat. Mauris lacinia suscipit mi eget fringilla. In aliquet eleifend nisl, et viverra enim malesuada vulputate. Cras dui risus, sagittis vitae velit sit amet, eleifend ornare elit. Etiam a mauris at nulla pulvinar tincidunt. Praesent vehicula mollis nibh, congue vehicula nisl ultricies ut. Lorem ipsum dolor sit amet, consectetur adipiscing elit. Vestibulum sed turpis tortor. Donec varius tristique justo, non interdum erat.' At the bottom of the page are social media icons for Facebook and Twitter, and a 'CONTACT US' button.

The wireframe depicts a web browser window for 'Hospidif'. The header bar includes standard icons for back, forward, stop, and search, along with the site name 'Hospidif'. Below the header is a navigation menu with a hospital icon and links for 'Services', 'Doctors', 'Locations', 'Areas', 'News', 'FAQ', 'Who we are', and 'How to benefit of our service'. The main content area has a left arrow and the text 'Service Name'. It contains two blue rectangular boxes: 'Description' and 'Prices & Promotions', both with black borders. To the right of these boxes is a large block of placeholder text (Lorem ipsum) and another paragraph. At the bottom left are two white rectangular buttons: 'Withdraw report' and 'Book Service'. To the right of these buttons is a table with three columns: 'Location Service' availability, 'Doctor's service', and a column of arrows pointing right. At the very bottom is a footer bar with social media icons for Facebook and Twitter, an envelope icon for 'CONTACT US', and a small gear icon.

Hospidif

The wireframe depicts a web browser window for 'Hospidif'. The header bar includes standard icons for back, forward, stop, and refresh, along with a search bar. Below the header is a red navigation bar with links: Services, Doctors (highlighted in red), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. A house icon with a cross is positioned next to the 'Services' link. The main content area is titled 'Doctors -> Name Area'. On the left, there's a 'Filters' section containing two groups: 'Services' and 'Locations'. The 'Services' group has a checked checkbox for 'All Services' and several other unchecked options: Chemotherapy, Radiotherapy, Radionuclide, Electrocardiogram, Echocardiograms, Endovascular surgery, Vascular surgery, and Gastroenterology & Endoscopy. The 'Locations' group has a checked checkbox for 'All Location' and three other unchecked options: London Westmister, Milano Repubblica, and a location represented by a house icon. Below the filters, there are eight placeholder boxes for doctor names, each labeled 'Doct. Surname'. At the bottom of the page are social media icons for Facebook and Twitter, and a 'CONTACT US' button.

Hospidif

The screenshot shows a web browser window for the 'Hospidif' website. The header includes standard navigation icons (back, forward, search) and the site name 'Hospidif'. Below the header is a red navigation bar with links: Services, Doctors (highlighted in red), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. On the left, there's a sidebar titled 'Filters' with sections for 'Areas' and 'Locations'. Under 'Areas', 'Cancer care' is checked. Under 'Locations', 'All Location' is checked. The main content area displays a search result for 'Doctors -> Endovascular surgery'. It features a portrait of a doctor named 'Doct. Amato' and a scroll bar on the right side.

Hospidif

The wireframe shows a web browser window with a red header bar containing a hospital icon, the word 'Hospidif', and navigation buttons. Below the header is a menu bar with links: Services, Doctors (which is the active tab), Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. The main content area has a title 'Doctors -> Name Location'. On the left, there are two sections: 'Filters' and 'Services'. The 'Filters' section contains a 'Areas' heading with checkboxes for All Areas (checked), Oncology, Pediatry, Chirurgy, Emergency, and Geriatrics. The 'Services' section contains a 'Services' heading with checkboxes for All Services (checked), RX, TAC, Ecography, Visit, Physiotherapy, and Consult. Below these sections is a grid of eight search fields, each labeled 'Doct. Surname' and featuring a large 'X' symbol inside a square frame.

The wireframe depicts a web browser window titled "Hospidif". The header bar includes standard navigation icons (back, forward, search, etc.) and the site title. Below the header is a red navigation bar with the following menu items: a hospital icon, "Services", "Doctors" (which is highlighted in red), "Locations", "Areas", "News", "FAQ", "Who we are", and "How to benefit of our service". The main content area has a left sidebar containing a large "X" placeholder image and a "Call" button. The main content area features a back arrow and the text "Doctor Surnamer Name". Below this are three buttons: "About", "Working Hours" (which is highlighted in blue), and "Related Services". A large text block follows, and another text block is present below it. At the bottom of the page are social media icons for Facebook and Twitter, a "CONTACT US" button with an envelope icon, and a small edit icon.

About Working Hours Related Services

My name is Mollie E. Aleshire; I am a family and pediatric nurse practitioner at the University of Kentucky College of Nursing Phyllis D. Corbitt Community Health Center in Wilmore, Ky. I am an assistant professor in the University of Kentucky College of Nursing. I am passionate about providing healthcare to the people of Kentucky and educating the nurses of the future. My nursing practice spans more than fifteen years with experience in both critical care and ambulatory care settings. I serve as a clinical preceptor for both baccalaureate and advanced practice nursing students.

I received a Bachelor of Science in Nursing degree from Berea College in Berea, Ky. I earned a Master of Science in Nursing in the family nurse practitioner track from the University of Kentucky in 2003. I was awarded a post graduate scholar certificate in the pediatric nurse practitioner track by Spalding University in 2005. In May 2010, I completed a Doctor of Nursing Practice at the University of Kentucky.

Doctor Lowell B. Anthony

About Working Hours Related Services

My name is Lowell Anthony; I joined the UK Markey Cancer Center with more than two decades of experience in oncology and a special focus in gastrointestinal and neuroendocrine oncology. My clinical interests include drug development ranging from Phase I to III clinical trials. Agents targeting specific cellular signaling pathways and injectable radiolabeled compounds make up my past and current clinical investigative interests. I bring a clinical correlative component to complement the ongoing translational activities at Markey Cancer Center.

I attended Vanderbilt University Medical School, where I also completed a medical residency and fellowship training in medical oncology and clinical pharmacology. I have previously been on the medical faculties at Vanderbilt University and the Louisiana State University Health Sciences Center in New Orleans.

The screenshot shows a web browser window with a light gray header bar containing icons for back, forward, stop, and search, along with a URL bar. Below the header is a red navigation bar with white text and icons. From left to right, the menu items are: a house icon with a cross (Services), Doctors, Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. The main content area has a white background. On the left, there is a black arrow pointing left and the text "Doctor Vrushali Angadi". To the right of the arrow is a portrait photo of a woman with long dark hair, wearing a white lab coat over a maroon collared shirt. The lab coat has "UK" and "University of Kentucky" printed on it. Below the photo is a black rectangular button with the word "Call" in white. To the right of the photo is a blue horizontal bar divided into three sections: "About", "Working Hours" (which is highlighted in black), and "Related Services". Underneath the photo, the text "Operating Services" is in blue, followed by three links: "Chemotherapy" (with an arrow), "Radiotherapy" (with an arrow), and "Radionuclide" (with an arrow). Further down, the text "Area Responsible" and "Service Responsible" are in blue, followed by "Radionuclide". At the bottom of the page is a gray footer bar with social media icons for Facebook and Twitter, and a "CONTACT US" button with an envelope icon.

Hospidif

The screenshot shows a web browser window with the title 'Hospidif' at the top. The header bar includes standard icons for back, forward, stop, and search, along with a magnifying glass icon. Below the header is a red navigation bar with links: Services, Doctors, Locations, Areas, News, FAQ, Who we are, and How to benefit of our service. A logo of a house with a cross is on the left. The main content area displays a portrait of Doctor Lowell B. Anthony, a man with white hair wearing a white lab coat and a patterned tie. To the left of the portrait is a black arrow pointing left. To the right of the portrait is a blue rectangular button labeled 'Call'. Above the portrait, the doctor's name 'Doctor Lowell B. Anthony' is displayed. Below the portrait, there are three tabs: 'About' (white), 'Working Hours' (white), and 'Related Services' (blue). Under 'Operating Services', there are two links: 'Electrocardiogram' and 'Echocardiograms', each followed by a right-pointing arrow. Under 'Area Responsible', there is one link followed by a dash. Under 'Service Responsible', there are two links: 'Echocardiograms' followed by a dash. At the bottom of the page, there are social media icons for Facebook and Twitter, and a 'CONTACT US' button with an envelope icon.
