Chapter 1

Abstract

This document aims to analyze and describe the usability characteristics of the website (www.tim.it). All rights reserved to Telecom Italia.

Chapter 2

Introduction

In the next chapter four scenarios are described. A scenario describes a user that tries to accomplish an objective, and the steps made by him/her. Each scenario is hence provided with a result section in which is described the evaluation of the heuristics of the pages visited by the user. Every member of this working group has performed an inspection of each page, the results have been discussed, and this document reports a wrap up of those results. The heuristics used for the analysis are the ones described by the MiLE (Milano-Lugano Evaluation Method) document.

The website evaluated is www.tim.it. This site provides services, products, promotions regarding in particular phone communication.
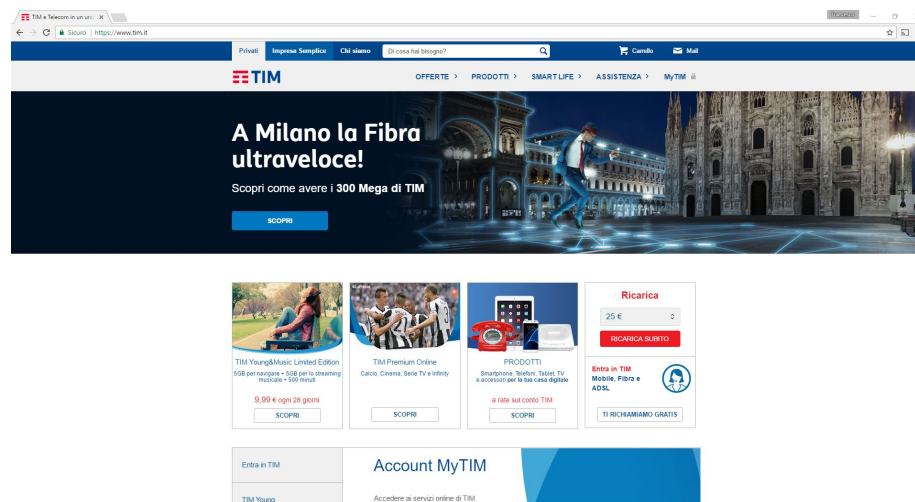

Chapter 3

Scenarios

3.1 Scenario 1

Alberto has to buy a new smartphone. He loves the services that his provider offers and he knows he can buy a new phone on its website.

1. He goes on www.tim.it

2. He clicks on "PRODOTTI" www.tim.it/prodotti

3. In the smartphone section he can choose between smartphone or iPhone. He clicks on "iPhone" www.tim.it/prodotti/smartphone-e-telefoni/iphone

4. Alberto sees that there are no promotions on iPhone so he goes back by clicking on "PRODOTTI"

5. There is a promotion on Samsung Galaxy S8. He clicks on "SCOPRI" www.tim.it/prodotti/smartphone-e-telefoni/samsung-galaxy-s8

6. He looks for the price and the specs. Alberto is interested and he wants to buy this phone. He clicks on "ACQUISTA". He is redirected on the ecommerce website of TIM and the purchase is continued through this site

3.1.1 Results

1. Report on www.tim.it

   Content heuristics
   Text

   - accuracy: satisfied
   - currency: severely violated
     the user cannot know if the page is updated

4

- coverage: satisfied
- content objectivity: satisfied
- authority: satisfied
- conciseness: satisfied

General communication quality

- text errors: satisfied
- multimedia consistency: satisfied

Navigation heuristics
Navigation within a topic

- segmentation: n/a

Navigation within a transition

- transition list: n/a

Navigation within a group of topics

- introduction list: satisfied
- group navigation: satisfied

Backward navigation

- go back: n/a

Overall navigation

- landmarks: satisfied
- link consistency: satisfied
- orientation clues: satisfied
- orientation clues - topic: n/a
- group orientation clues: n/a
- transition orientation clues: n/a

Visual and semantic heuristics
Overall graphic design

- visual identity: satisfied
  the palette represents the colors of the company logo

- chromatic code consistency: satisfied

- background contrast:satisfied

- font size: satisfied

- font colour: satisfied

- font type: satisfied

- anchor identity: satisfied

- anchor states: satisfied
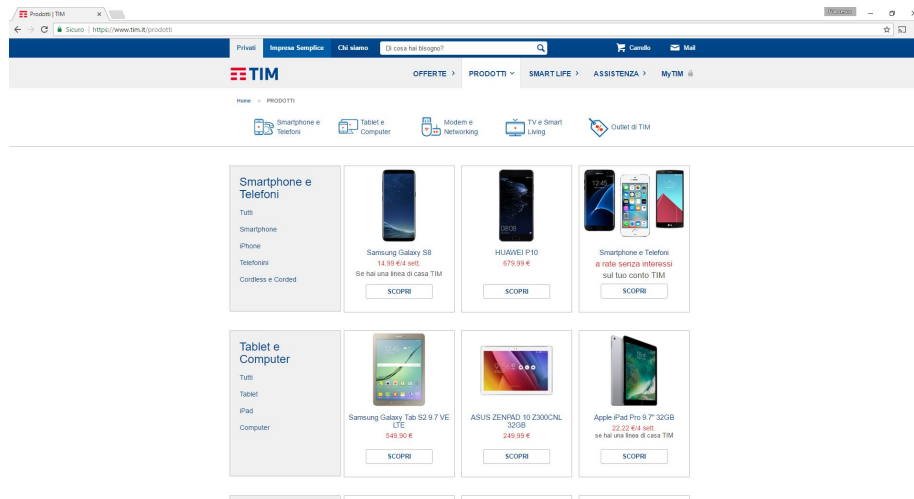

- icon consistency: satisfied

Page layout

- visual proximity: satisfied

- layout conventions: satisfied

- semiotics: satisfied

Cognitive heuristics
Single page

- information overload: partially violated
  due to the number of services that the site offers, a novice could be
  overwhelmed by a lot of informations

Information architecture

- classification adequacy within group of topics: satisfied

- website mental map: satisfied

2. Report on www.tim.it/prodotti

Content heuristics
Text

- accuracy: satisfied
- currency: severely violated
- coverage: satisfied
- content objectivity: satisfied
- authority: satisfied
- conciseness: satisfied

General communication quality

- text errors: satisfied
- multimedia consistency: satisfied

Navigation heuristics
Navigation within a topic

- segmentation: n/a

Navigation within a transition

- transition list: n/a

Navigation within a group of topics

- introduction list: satisfied
- group navigation: satisfied

Backward navigation

- go back: partially violated
  there isn't a "go back" functionality but the user can exploit the TIM
  logo to return to the homepage or select a position in the website
  structure path (Home ▷ PRODOTTI)

Overall navigation

- landmarks: satisfied
- link consistency: satisfied
- orientation clues: satisfied
- orientation clues - topic: n/a
- group orientation clues: satisfied
- transition orientation clues: n/a

Visual and semantic heuristics
Overall graphic design

- visual identity: satisfied
- chromatic code consistency: satisfied
- background contrast:satisfied
- font size: satisfied
- font colour: satisfied
- font type: satisfied
- anchor identity: satisfied
- anchor states: satisfied
- icon consistency: satisfied

Page layout

- visual proximity: satisfied
- layout conventions: satisfied
- semiotics: satisfied

Cognitive heuristics
**Single page**

- information overload: satisfied

Information architecture

- classification adequacy within group of topics: satisfied
- website mental map: satisfied

3. Report on www.tim.it/prodotti/smartphone-e-telefoni/iphone

Content heuristics
Text

- accuracy: satisfied
- currency: severely violated
- coverage: satisfied
- content objectivity: satisfied
- authority: satisfied
- conciseness: satisfied

General communication quality

- text errors: satisfied

Page layout

- visual proximity: satisfied
- layout conventions: satisfied
- semiotics: satisfied

Cognitive heuristics
Single page

- information overload: satisfied

Information architecture

- classification adequacy within group of topics: satisfied
- website mental map: satisfied

3.2   Scenario 2

Barbara has moved to a new home ad now she needs for a new telephone number and an internet connection.

1. She goes on www.tim.it

2. She clicks on "Verifica la copertura 4G, Fibra e ADSL" www.tim.it/verifica-copertura#tab-verifica-fisso

3. She enters her address information in the form and she clicks "VERIFICA". Her home is reached by fyber and adsl connection by TIM so she decides to look for a promotion. She clicks on TIM logo to return to the homepage.

4. She overs the mouse on "OFFERTE" and clicks on "Fisso" `www.tim.it/offerte/fisso`

5. She clicks on "TIM SMART FIBRA PLUS" `www.tim.it/offerte/fisso/internet-voce-e-timvision/fibra/tim-smart-fibra-plus`

6. On the left side she clicks on "Costi". The costs look good so she decides to choose this promotion. Barbara clicks on "ATTIVA". The website redirects her to the ecommerce website of TIM and she continues from here.

3.2.1   Results

1. Report on `www.tim.it/verifica-copertura#tab-verifica-fisso`

Content heuristics
Text

- accuracy: satisfied
- currency: severely violated
  the user cannot know if the page is updated
- coverage: satisfied
- content objectivity: n/a

- classification adequacy within group of topics: satisfied
- website mental map: satisfied

3.3   Scenario 3

Summer is coming. Chiara wants to be in shape for the swimsuit season. She heard about the Smart Life services of TIM so she checks on their website.

1. She goes on www.tim.it

2. He clicks on "SMART LIFE" www.tim.it/smart-life

3. She scrolls through the categories and she clicks on "Salute e benessere" www.tim.it/smart-life/salute-benessere

4. She looks for products. She clicks on "Loop H7 HR" then on "SCOPRI I DETTAGLI" www.tim.it/polar-loop-activity-tracker

5. She likes the product but she wants to look for other. She can't go back with navigation so she over the mouse on "SMART LIFE" and clicks on "Salute e benessere"

6. Now she clicks on "Samsung Galaxy Gear Fit" then on "SCOPRI I DETTAGLI" https://www.tim.it/prodotti/tv-e-smart-living/samsung-gear-fit

7. Chiara prefers this one. She looks for the specs and then clicks on "ACQUISTA". She is redirected to ecommerce website of TIM. She continues from here.
